How To: Choose a Wireless Network

MSIS wireless networking options for computers and mobile devices.

Use ethernet instead of wireless for any data intensive use.

Visitors and Patients	Central Campus Faculty/Staff	UMMS and UMHS Faculty/Staff
MGuest-UMHS	**MWireless-UMHS**	**UMHS-8021X**
No Password / Accept Terms of Use	Level 1 Password (Kerberos)	Level 2 Password
Publicly Available Resource Only	**Non-Clinical Network and Applications, and Printing**	**PHI, Clinical Network and Applications, Schedulon, and Printing**
Guest printing available in Building 18 Service Center		

Questions?

Please contact the MSIS Service Desk.

Campus Phone: 734.763.7770

Email: msishelp@umich.edu

http://www.msis.med.umich.edu/

See page 2 for additional information about wireless networks and passwords.

MGuest-UMHS Wireless Network

- Free wireless Internet service
- No password necessary
- Allows access to the Internet and publicly available UMHS resources

MWireless-UMHS Wireless Network

- Requires Level-1 (also known as Kerberos) password to log in
- Will need to re-authenticate with password if coming from any other campus location not on the UMHS network
- Once logged in, not necessary to re-authenticate between buildings within UMHS or NCRC

UMHS-8021X Wireless Network

- Requires UMHS Level-2 password to log in
- Choose this network for maximum security of clinical and other sensitive data
- Security setting: WPA2 with AES encryption using PEAP

How to Request a Level-2 Password

- Requires a request from an authorized signer or a sponsor
- Submit your request to MSIS at msishelp@umich.edu or (734) 763-7770

*Please note this process requires **at least two business days**. For more information, refer to: https://idm.med.umich.edu/level-2/*
